

About Us

10x Exports

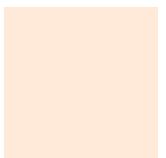

we are dedicated to revolutionizing the healthcare industry by manufacturing high-quality surgical disposable products. With years of experience and a commitment to excellence, we provide innovative solutions that ensure the highest standards of safety and efficacy for medical professionals and patients .

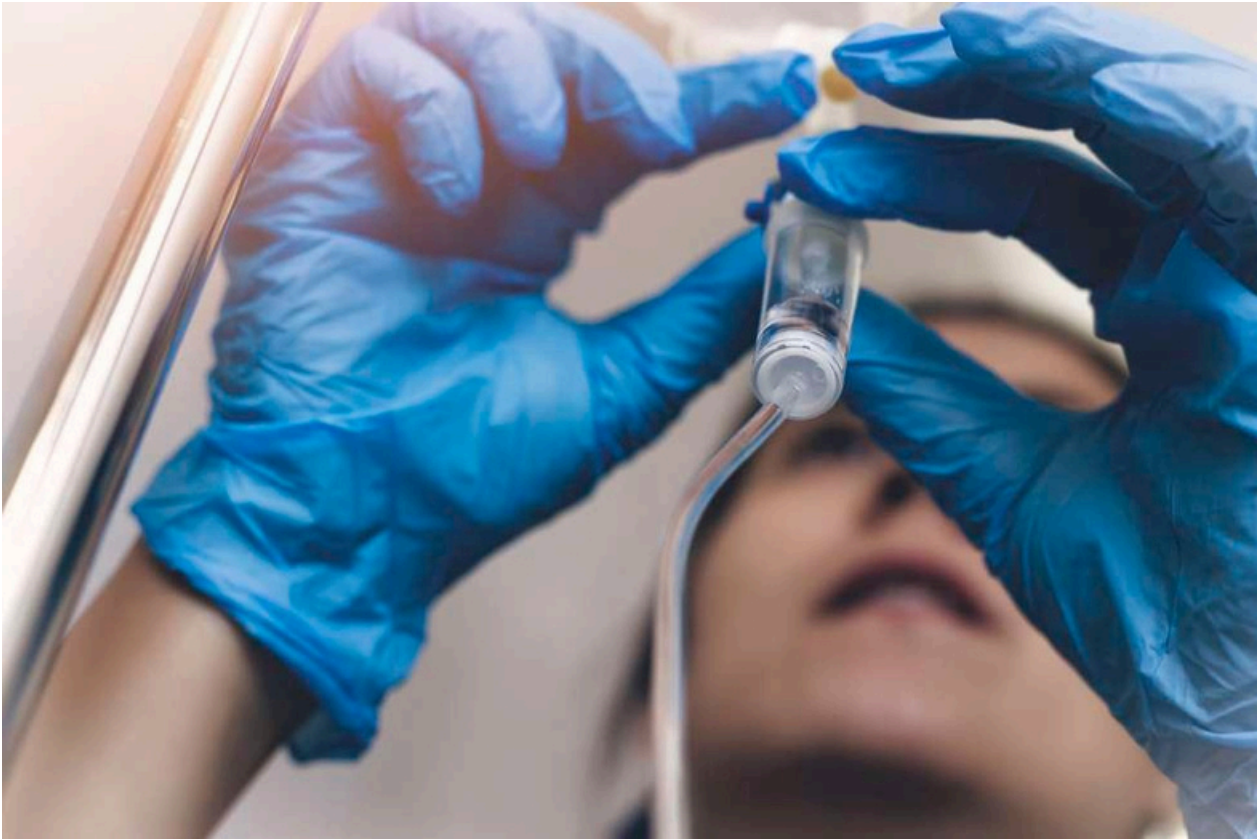

If you are looking for surgical Disposable products, we are the leading supplier, doing trade with 25+ countries for surgical products and equipment.

Looking for surgical products or equipment for your medical stores at the best prices? We at 10X Exports offer the highest quality. We have 500+ clients worldwide.

PRODUCT CATALOGUE

INFUSION THERAPY

Infusion therapy is when you receive medication through a needle or catheter, usually intravenously (IV).

IV Set Vented

Air Vented Spike

Roller Clamp

Male Luer
with Hypodermic Needle

- > Sharp air vented spike.
- > Suitable for pressure & gravity infusions.
- > Latex-free.
- > DEHP-free.

IV Set Non-Vented

Non-Winged

Winged

IV Set Vented with Y Injection Site

Y Injection Site

Air Vented Spike

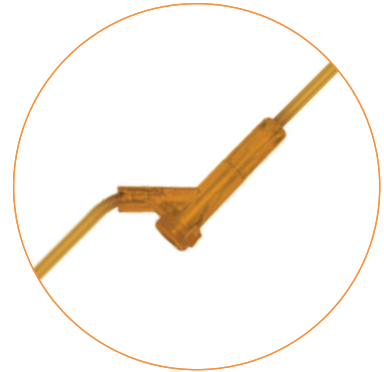

- > Sharp air vented spike.
- > Suitable for pressure & gravity infusions.
- > Latex-free.
- > DEHP-free.

Oncology Infusion Set

Y Injection Site

Air Vented Spike

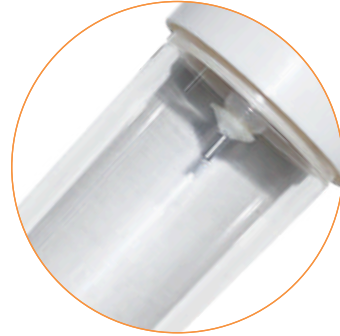

> Oncology Infusion Set are designed for the administration of chemotherapy.

Micro IV Set Non- Vented

Micro Drip

Roller Clamp

Male Luer
with Hypodermic Needle

- > Micro I.V. Infusion set for paediatric use
- > Approximately 60 drops/ml
- > Sharp Spike for easy insertion

Micro IV Set Vented with Y Injection Site

Y Injection Site

Micro Drip

- > Micro I.V. Infusion set for paediatric use
- > Approximately 60 drops/ml
- > Y-injection port designed for multiple injections
- > Sharp and Winged Spike for easy insertion

IV Set Vented with 0.2 Micron Filter with Y Injection Site

0.2 Micron Filter

Roller Clamp

- > Sharp air vented spike
- > Suitable for pressure & gravity infusions
- > Latex free
- > DEHP free
- > Y-injection port designed for multiple injections
- > 0.2 Micron Inline Filter

Flow Regulator

Flow Regulator intergrated with IV Set

Flow Regulator

- > Ergonomic dial design.
- > Compatible with standard sets.
- > Y-injection port designed for multiple injections.
- > DEHP-Free soft and kink resistant PVC tubing.

Blood Transfusion Set

Non-Vented

Vented

Measured Volume Burette Set

Air Vented Spike

Silicone Floater

- > Burette chamber of 110ml/150ml.
- > Micro drip with drop size of 60 drops per ml.
- > DEHP-Free soft and kink resistant PVC tubing.

Measured Volume Burette Set with Y Injection Site

Y Injection Site

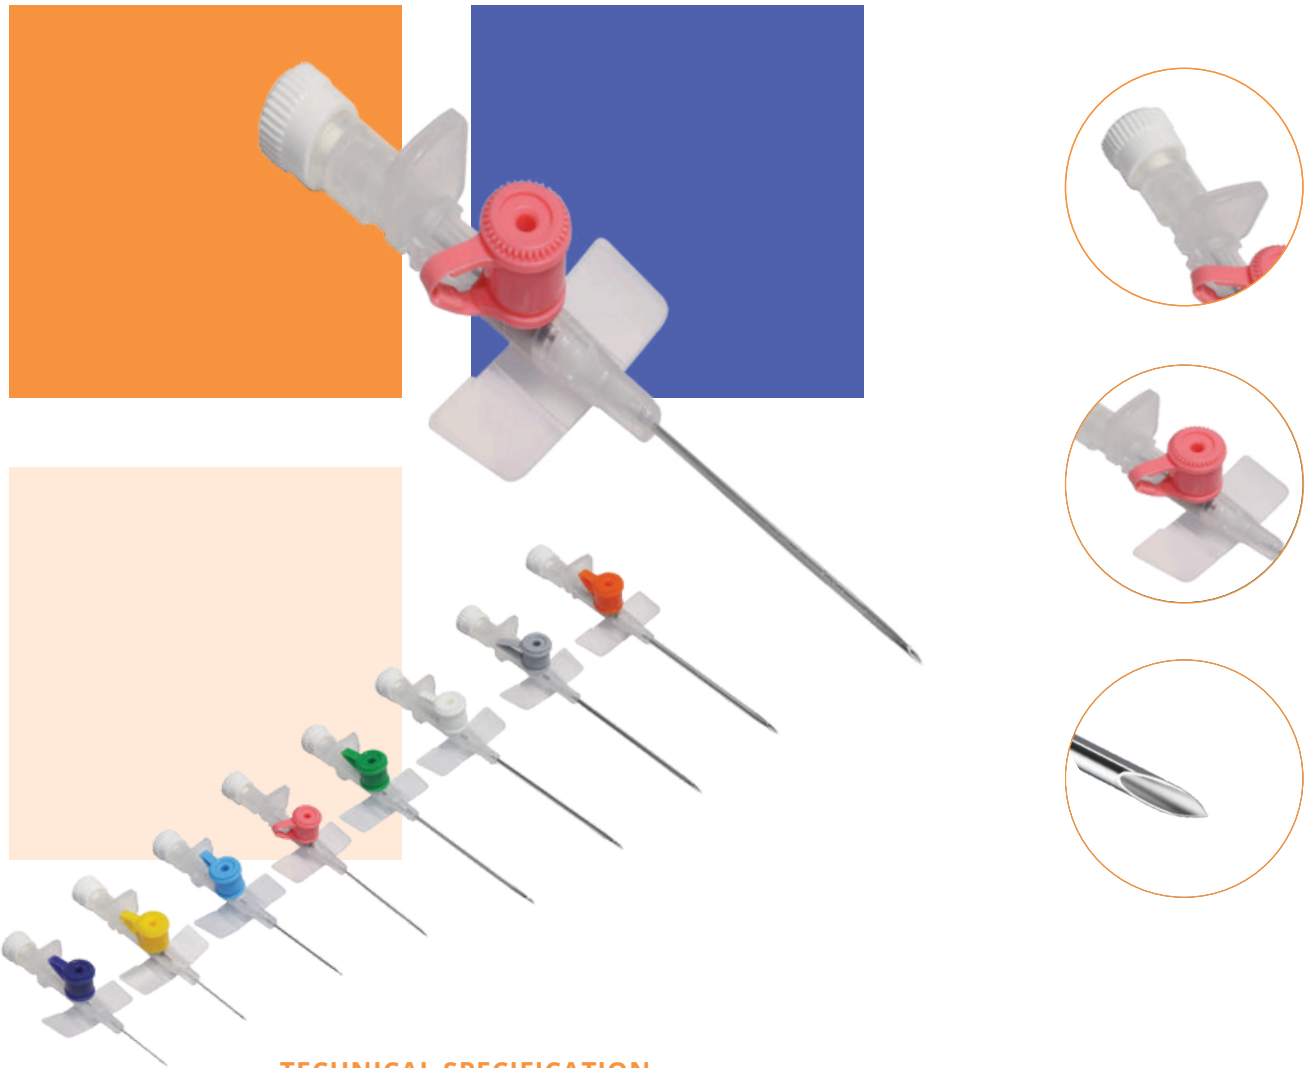

Silicone Floater

- > Burette chamber of 110ml/150ml.
- > Micro drip with drop size of 60 drops per ml.
- > Y-injection port designed for multiple injections.
- > DEHP-Free soft and kink resistant PVC tubing.

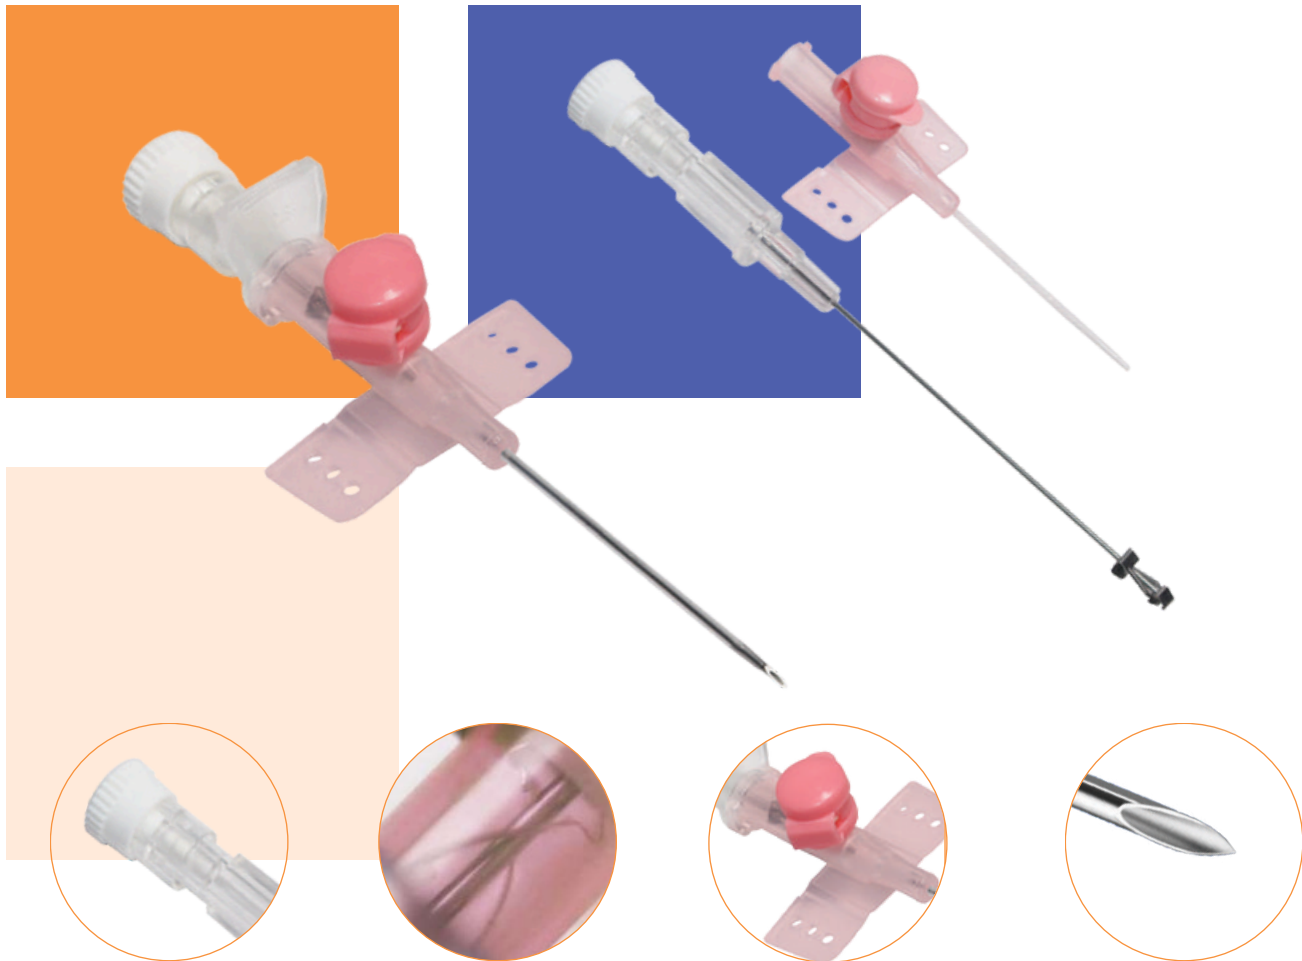

IV Cannula with Wings and Injection Port

UROLOGY & NEPHROLOGY

A nephrologist deals with problems of the kidney with medicines and a urologist deals with kidney ailments that require surgery. Any ailments in the urinary system, prostate, bladder and penis which require surgical intervention are tended to by a urologist.

Foley Catheter

Latex Foley Catheter

- Sizes Available :**
-  8FR
 -  10FR
 -  12FR
 -  14FR
 -  16FR
 -  18FR
 -  20FR
 -  22FR

Silicon Foley Catheter

- Sizes Available :**
-  6FR
 -  8FR
 -  10FR
 -  12FR
 -  14FR
 -  16FR
 -  18FR

Urine Bag

Premium version features a high-quality plastic handle

- > Urine collecting bag used for urine drainage.
- > Two litre capacity bag provided with super smooth kink resistant tubing.
- > Efficient non-return valve with top outlet.

Urometer

- > Graduated measured volume meter for accurate measurement of the urine output.
- > Urometer is directly attached to a 2 litre capacity urine bag having overflow facility.
- > Soft and kink resistant PVC tubing.

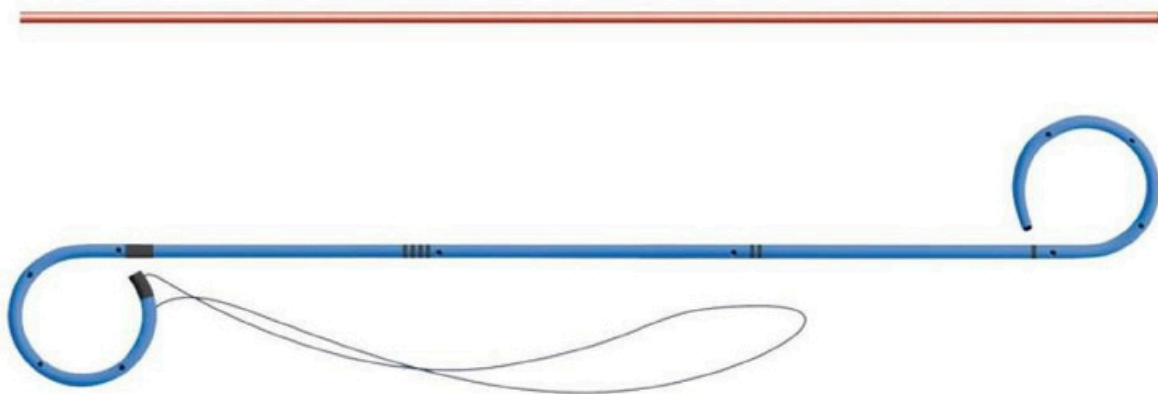

URETHRAL TUBE

Sizes Available :
from 8FR to 16FR

- > Designed for short term bladder catheterization through urethra.
- > Manufactured from medical grade PVC compatible with catheter lubricants.

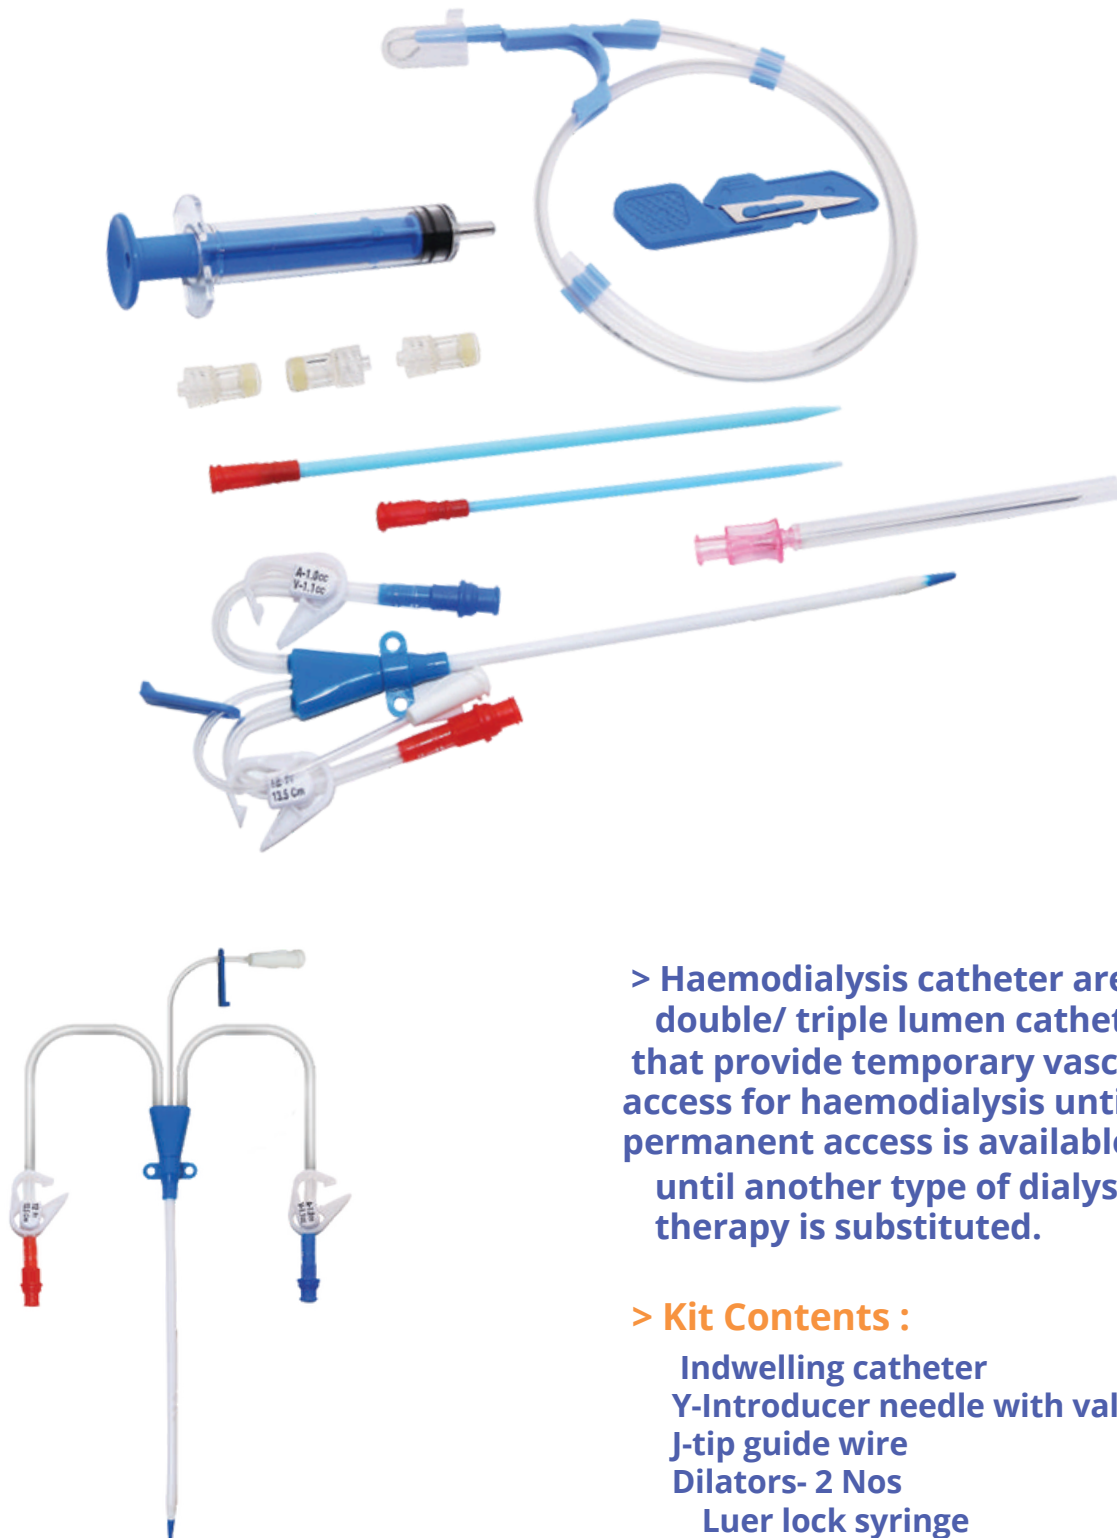

DJ STENT

- > Short and Long Term connection of Urethra and Bladder.
- > Closed Tip and Open Tip

HAEMODIALYSIS KIT

Haemodialysis Double/Triple Lumen Catheter

> Haemodialysis catheter are double/ triple lumen catheter that provide temporary vascular access for haemodialysis until a permanent access is available or until another type of dialysis therapy is substituted.

> Kit Contents :

- Indwelling catheter
- Y-Introducer needle with valve
- J-tip guide wire
- Dilators- 2 Nos
- Luer lock syringe
- Scalpel

RESPIRATORY CARE

Respiratory therapy is a field of treatment that helps individuals optimize their respiratory function, breathe more easily, and live more comfortably.

AMBU BAGS

Silicone Resuscitator (Adult/Pediatric/Neonatal)

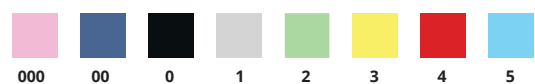

- >Silicone resuscitator (except mask, oxygen tubing and reservoir bag) can be autoclaved repeatedly.
- >It is semi-transparent and come with a pressure limitation valve for patient safety.

GUEDEL AIRWAY

> The center passage permits the passage of suction catheters to clear secretions from the back of the throat.

Sizes Available :

CHIRO-OXY

Oxygen Mask (Adult/Pediatric/Neonatal)

- >The clinically clean oxygen masks are used to administer oxygen.
- >The adjustable nose clip and the under-chin design increase the comfort and acceptance of these masks.
- >Clear, soft vinyl for patient comfort and visual assessment.

CHIRO-OXY HIGH FLOW

Oxygen Mask High Flow (Adult/Pediatric/Neonatal)

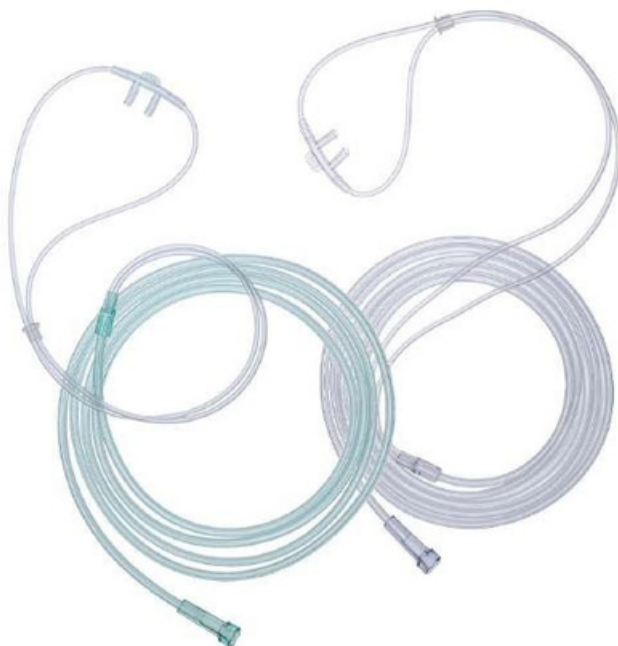

- >Low resistance check valve. Prevents patients from rebreathing gas already exhaled
- >Odorless vinyl body. Soft mask is latex free, comfortable for patients, and material is safely disposable.
- >Adjustable nose clip. Allows mask to be formed to patient for tighter seal.

Nebulizer Mask (Adult/Pediatric/Neonatal)

- >Clear, soft vinyl for patient comfort and visual patient assessment.
- > Latex-free
- >Adjustable nose clip assures comfortable fit.
- >Specifically design for aerosol therapy.

Nasal Prongs (Adult/Pediatric/Neonatal)

- >Delivers safe, low/moderate concentrations of oxygen for extended periods of time.
- >The soft nasal part of the anatomical shape reduces the risk of damage to the mucosa.
- >Comes with kink-resistant supply tubing.

HME FILTER

- >HME filter is used on patient breathing circuits to avoid any cross-contamination.
- >Appropriate for spontaneous respiration patients with a tracheostomy tube.
- >Low resistance to flow reduces load on breathing.

Lung Exerciser 3 Balls

- >Wide inspiratory flow rate range from 600 - 1200cc/sec to suit the widest range of patients.
- >Removable inspiratory limb for cleaning convenience.
- >Compact design & break-resistant plastic.

CATHETER MOUNT

- >Catheter Mount is a medical accessory that is attached with the tracheal tube to the end of the anesthetic breathing system.
- >Catheter Mount attached with breathing circuit minimizes the jerk of breathing to ET or TT reducing trauma to the trachea.

BAIN CIRCUIT

- > The process includes patient inspiring fresh gas from the outer reservoir tube and expiring into reservoir tube.
- >Convenient, lightweight anesthesia delivery system.

> **Unit Contents :**

22mm Cap 22mm corrugated tube
 22mm expiratory valve 2 litres
 antistatic rebreathing bag
 Standard connectors Green Tube

VENTILATOR CIRCUIT

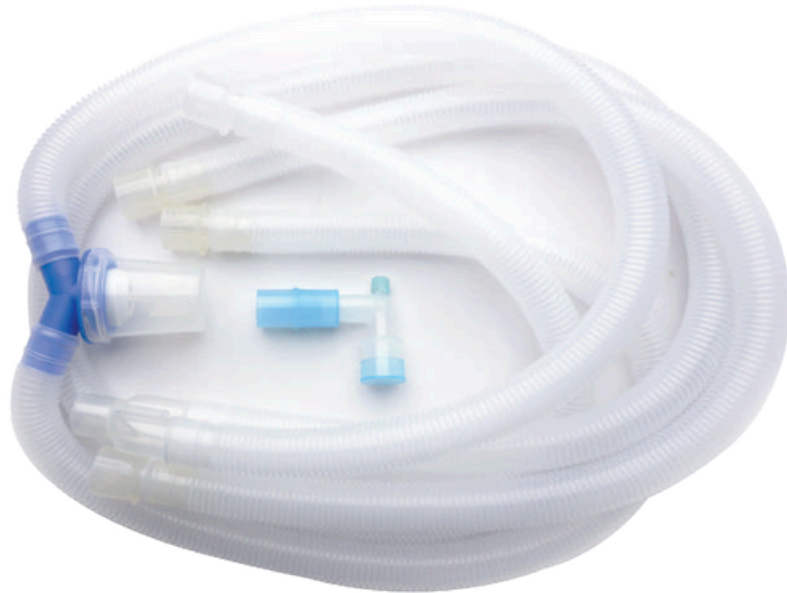

**Ventilator Circuit
without Water Trap**

**Chiro-Venti Kit
(Ventilator Circuit + HME Filter
+ Catheter Mount)**

VENTILATOR CIRCUIT

**Ventilator Circuit
with Water Trap**

**Ventilator Circuit
with two Water Traps**

SURGERY & DRAINAGE

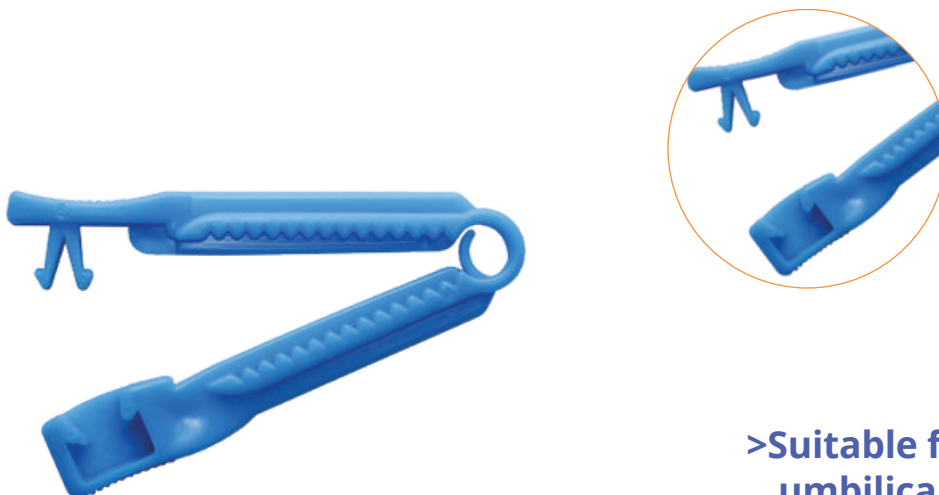

Surgical drains are catheters placed near the surgical wound to remove blood, pus, or other fluid and prevent it from accumulating in the body.

CHIRO-ADK

- >Specially designed kit for post-operative abdominal drainage.
- >Drainage catheter alongwith a collection bag.
- >Catheter with atraumatic eyes for efficient drainage.

UMBILICAL CORD CLAMP

- >Suitable for clamping the umbilical cord of new born baby immediately after the birth.

CHEST DRAIN CATHETER

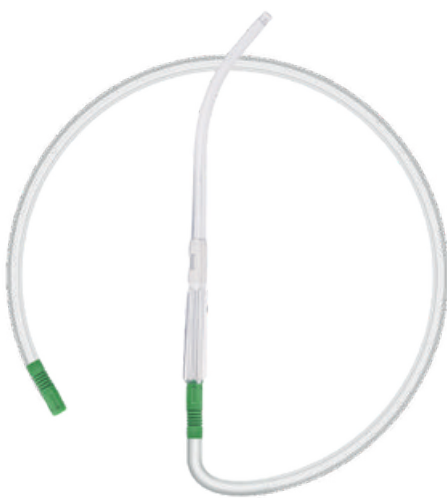

With Trocar

Without Trocar

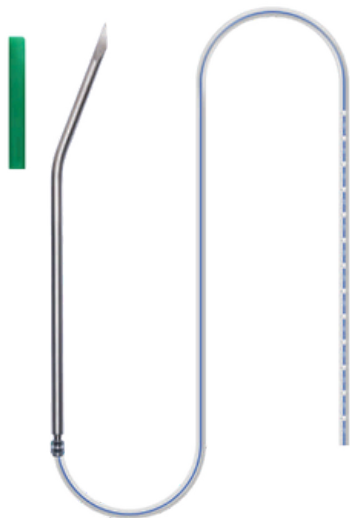

- > Suitable for effective drainage after cardio-thoracic & thoracic surgery.
- > With radio-opaque line and markings at every 2 cm from the last eye.

YANKAUER SUCTION SET

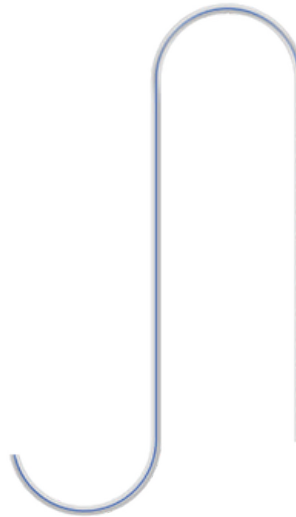

- > Moulded Yankauer suction handle with flexible kink resistant tube.
- > Soft flexible adaptors at both ends of the tube provide safe grip to the handle as well as suction source.

Wound Drainage Set

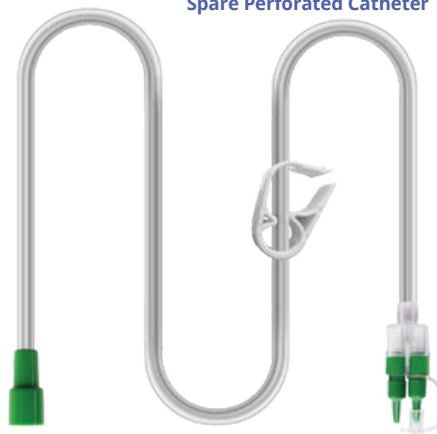

Curved Needle with Matching Catheter

Spare Perforated Catheter

Bellow Unit
Capacity 800 ml

Connecting Tube with Clamp
and "Y" connector

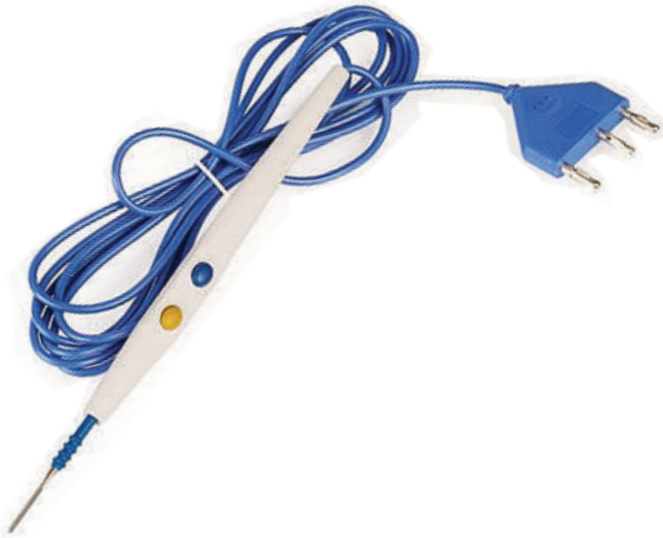

- >Close wound drainage device under negative pressure.
- >Provided with the option to use one or two catheters post-operatively.
- >Multiperforated catheters provided with radio opaque line and eyes for trauma free performance.

Sizes Available :

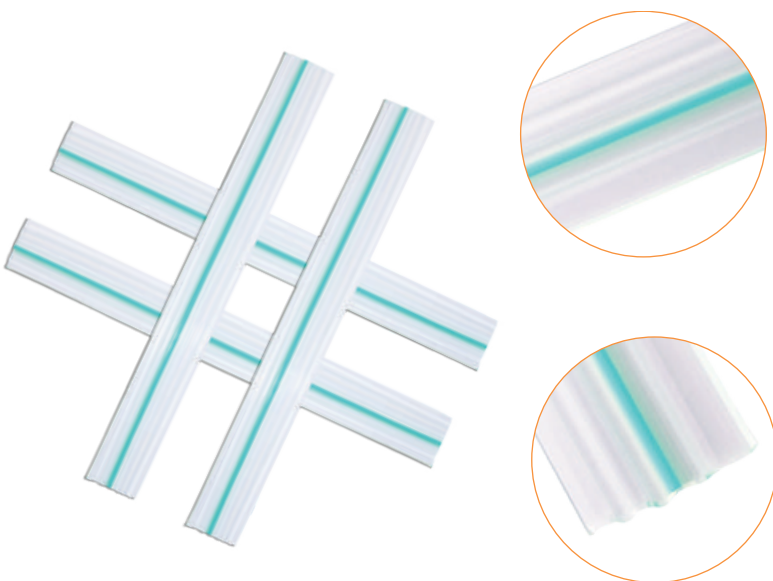

10FG 12FG 14FG 16FG 18FG

CAUTERY PENCIL

- > Cautery pencils are widely employed in surgical procedures for their ability to achieve precise and controlled cauterization.
- > 3 Metre long wire.

Corrugated Drainage Sheet

- > Designed for efficient multichannel wound drainage specially where airtight closure of wound is not possible.

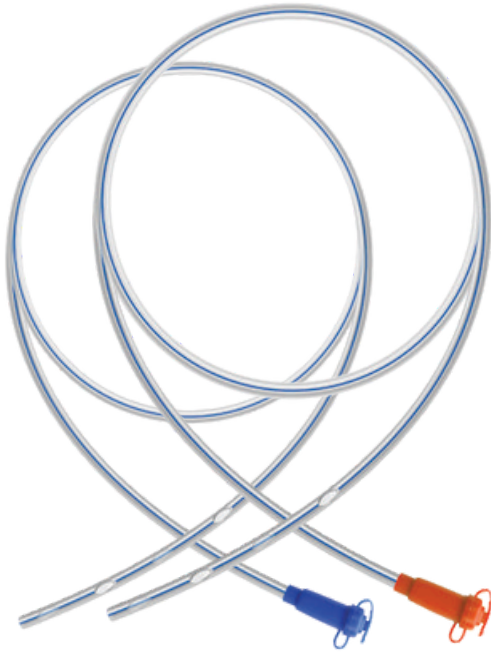

GASTROENTEROLOGY

Gastroenterology is the branch of medicine focused on the digestive system and its disorders.

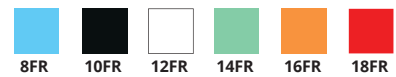

RYLES TUBE

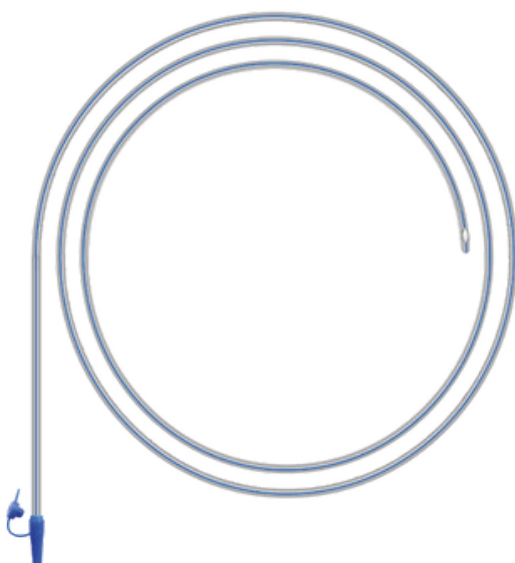

- >Designed for introduction of nutrition and aspiration of gastric contents.
- >Four lateral eyes are provided for efficient aspiration and administration.

Sizes Available :

FEEDING TUBE

- >Infant feeding tube with graduation.
- >Made from DEHP Free, non-toxic PVC material completely non-irritant to delicate mucosa.
- >The tube features low friction, super smooth frozen surface ensuring non-traumatic intubation.

Sizes Available :

MUCUS EXTRACTOR

>Suitable for obtaining mucus specimen for microbiological examination.

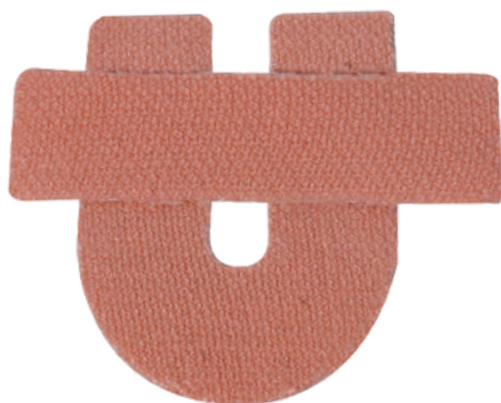

>Clear and transparent container allowing visual examination of mucus specimen.

>Universal plain funnel connector for easy connection.

Sizes Available :
